

alkoxyalkyl, alkylol, and mixtures thereof.

A² 2. ~~11~~ (AMENDED) A crosslinker according to Claim ~~10~~¹¹, wherein the substituents on the amino resin core comprise more than one olefin functional group.

3 ~~12~~ (AMENDED) A crosslinker according to Claim ~~10~~¹¹, wherein the substituents on the amino resin core comprise two or more olefin functional groups.

6 ~~13~~ (AMENDED) A coating composition according to Claim ~~14~~⁵, wherein 0.1 - 10%, on an equivalent basis, of the resin reactive functional groups in the crosslinking composition are contributed by the functionalized crosslinker.

A³ 7 ~~13~~ (AMENDED) A coating composition according to Claim ~~14~~⁵, wherein from 0.1 to 3%, on an equivalent basis, of the resin reactive functional groups in the crosslinking composition are contributed by the functionalized crosslinker.

8 ~~14~~ (AMENDED) A coating composition according to Claim ~~14~~⁵, wherein the functionalized crosslinker has two or more olefin functional groups.

A⁴ 11 ~~20~~ (AMENDED) A method according to Claim ~~19~~¹⁰, wherein the melamine formaldehyde resin has a molecular weight of up to about 2000.
